Allround Etikettensystem

Network & USB

300 DPI resolution

Industrial Quality

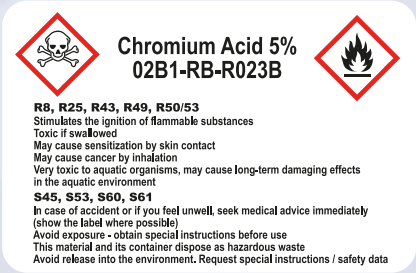
Maintenance labels | Health and Safety | Chemical labelling
Cable and Wire marking | Pipe and Valve marking
Equipment marking | Six Sigma and LEAN | Pictograms

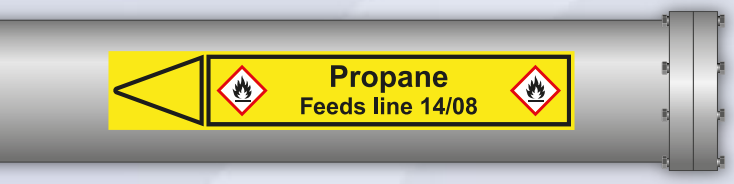
SMS-430 - Fast, Flexible and Network Ready!

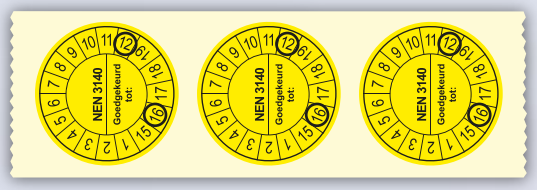
The SMS-430 is technologically up to date, with the latest print head design and connectivity options to deliver a strong, reliable sign and label workhorse. Capable of producing labels from 13mm up to 100mm wide and in over 40 different quality materials, the systems high definition output is ideal for even the smallest of text and label details. Supplied with Microsoft® approved NiceLabel software and thousands of industrial graphics, the SMS-430 is a single solution for an enormous range of sign and labeling requirements.

SMS 430
SIGN MAKING SYSTEM

With the SMS-430 you can easily create all of the labels below!







STANDARD TAPE QUALITIES:

- **Industrial Vinyl (E300)** Standard 3-5 year, perfect for most applications.
- **Premium Vinyl (ST700)** High quality 5-7 year, for higher durability.
- **High-Tack (HT700)** High tack adhesive, ideal for difficult surfaces like wood, concrete, oil and low friction plastics.
- **Polyester (PT700)** High tack adhesive, high temperature, low halide - ideal for machine plates and pipes.
- **High Temperature Tape (H250)** High tack adhesive and extra high temperature resistance.
- **Cold Weather Tape (CW200)** Good adhesion to extremely cold surfaces.

SMS-430 - Durable signs and labels from a durable work horse

From health and safety signage to data base connected labels, the SMS-430 can deliver both simple and sophisticated solutions. It has over 40 different materials for every application including: cable and wire marking, high or low temperatures, oily and difficult surfaces, permanent or removable adhesives, mild or aggressive chemical resistance and more...

A dependable system, delivered with top class software!

Loftware NiceLabel

- Professional software with extensive print & design capabilities
- Design and edit texts, barcodes, lines, shapes and images
- Comes with 'click and go' ready to use label templates – just add text and print
- Advanced functionality for multiple field linking
- Thousands of industrial symbols and icons in compliance with the latest regulations
- Advanced design tools like rich text, linestyles, group, textframes with automatic font size
- Connect data on your labels from data bases and spread sheets (Excel, Access)
- Microsoft® certified software

Printer specifications

Printing Method	Direct Thermal & Thermal Transfer
Resolution	300dpi
Speed	Min. 25,4 ~ Max. 101,6mm/s (1 ~ 4ips)
Print Length	Min. 5mm ~ Max. 1270mm
Print Width	Max. 104mm
Dimensions	W 220mm x D 278mm x H 187mm
Weight	2,4kg
Sensors	1x "Media gap" / 1x "Reflective" / 1x "Transmissive" 1x "Print head up" / 1x "Ribbon out"
Operation Interface	2x LED indicator / 1x button (Feed)
Connectivity	USB-A, USB-B, RS-232, Ethernet
Agency Listing	CE, FCC, IC, CB, UL, RoHs, BSMI
Media Type	Roll-feed, Die-cut, Continuous, Tags
Ribbon Type	Wax, Resin, Wax/Resin
